TO WHOM IT MAY CONCERN REGARDING:

The CAUS Canadian Benefits Trust

The Canadian Benefits Trust has provided CEP Local 707, (Suncor), the Health & Welfare Benefits Plan for our term members since the year 2000.

During the past 10 years we have found that the Plan has served our members very well. The coverage, claims adjudication and payment have really been good. Also, the service has been excellent and the pricing competitive.

Since the Plan's inception, the number of our members participating, has fluctuated frequently and by a large volume. In addition, the insurance providers have changed due to an opportunity for cost containment. These challenges have been handled extremely well by the Plan's administrator, with little or no extra work to Local 707.

We do not hesitate to recommend the Canadian Benefits Trust as a Health & Welfare Plan provider. If you would like additional information you can contact me.

In Solidarity,

Roland LeFort

President, CEP Local 707
