April 7, 2011

Dear Sisters and Brothers:

The Calgary Workers' Resource Centre (CWRC) has participated in the Canadian Benefits Trust health and welfare benefits plan since 2004. We are happy to support this national, non-profit organization established by the labour movement that provides an alternative to employer-controlled benefit plans.

The CWRC has been very pleased with the plan's benefits coverage, and with the quality of the service provided by Canadian Benefits Trust staff. While we have seen many clients struggle to access the benefits they should have been entitled to under their employer-controlled benefit plans, claims submitted by our staff to the Canadian Benefits Trust have always been processed in a courteous, professional, and timely manner, and without hassles.

If you are looking for a benefit plan that allows greater union input into the decisions made regarding members' benefit plans, then I encourage you to contact the Canadian Benefits Trust for more information on this excellent plan.

In solidarity,

Xavier Cattarinich
Interim Centre Director
